## EDUCATION

**University of Arkansas** — Fayetteville, AR
GPA: 4.0 — Expected Graduation: May 2030
B.S. in Computer Engineering, Minor in Innovation & Entrepreneurship

**Bentonville West High School** — Bentonville, AR
GPA: 4.25, Graduated with High Honors — Graduation: May 2026
Relevant Coursework: Ignite Professional Studies - Technology Strand

## EXPERIENCE

**Tariff Ninja** — Bentonville, AR
Lead Software Engineer — July 2026 - September 2026
Software Engineer — February 2026 - July 2026

- Built a human-in-the-loop AI RAG system to classify products into HTS codes, identify tariff savings, automate CBP filings, and forecast potential tariff increases with AI.
- Developed large-scale data infrastructure supporting 1.5M+ items, including document processing, item management, and freight tracking.
- Created a full-stack lead allocation app with algorithmic company search and scoring, and Apollo integration
- Partner with clients to define requirements and deliver tailored features end to end.
- Lead the engineering planning, design, platform development, and technical implementation across projects while managing a team of engineers.

**Potential Energy Tech** — Bentonville, AR
Software Engineer Intern — January 2026 - May 2026

- Developed a web-based platform for battery analysis across multiple file formats and test types.
- Engineered a high-performance calculation system enabling sub-second processing of 1.2M+ data points.
- Contributed to SaaS business strategy, including cloud storage architecture and subscription-based pricing.

## PROJECTS

**City of Bentonville Traffic Solutions** — November 2025 - December 2025

- Developed a machine learning model to analyze traffic patterns and evaluate signal timing improvements.
- Analyzed traffic data, developed visualizations, and presented findings to the City of Bentonville Traffic Department and Mayor.

**Querry Berry - Custom Search Engine** — June 2025 - July 2025

- Built a full-stack search engine with a Next.js frontend and Dockerized PostgreSQL backend.
- Implemented a custom lexer and indexer pipeline processing 2.3M+ unique tokens.

## LEADERSHIP & ACTIVITIES

- RIOT Robotics, UARK - Developing a low-cost impact-detection vest for a local business.
- Founder, BWHS Competitive Programming Club - Led club to 7 statewide and national awards.
- Senior Captain, BWHS Science Olympiad Club - Led team to 3 national qualifications and state awards.

## SKILLS

Languages: TypeScript, JavaScript, Ruby, C++, Python, and Rust.
Frameworks & Tools: Ruby on Rails, Next.js, React, Docker, PostgreSQL, SQL, Git, and Jupyter.

## AWARDS

**VEX Robotics:** Arkansas State Innovate Award; 2× Regional Innovate Award; VEX World Championship qualifier.
**Arkansas Hog Hacks:** Most Creative Award; 6th overall as a high-school team.
